

Who I am

I'm a visual thinker with passions such as illustration, photography and travelling. Finding solutions to problems that shape the world to be a better place is the biggest reason why I study communication design.

Design isn't just drawing nice pictures and taking good photos, it's everything we see on a day to day basis, it determines our habits, our life and everything in between. To me that is extremely powerful and brings a lot of responsibility.

I use Lightroom, Photoshop and InDesign almost on a daily basis and for my illustrations i use Procreate on my iPad. What I'm most interested in at the moment is the conceptual work as well as print and UI/UX.
